

## Sales Order Freight Import

Save your company time and money by linking your UPS WorldShip®, FedEx Ship Manager® or USPS directly to your TRAVERSE® Sales Order transactions.

The Freight Import integrates seamlessly into your Sales Order module and is available for TRAVERSE® 10.x.

Transaction ID	Freight Amount	Shipper Number	Discount %	Original Freight	Weight	Void Y/N
00172652	149.85	E47201	10	166.5	707.00	N
00172867	6.06	79V680	10	6.73	21.00	N
00173186	6.06	79V680	10	6.73	21.00	N
00173723	24.39	79V680	10	27.1	37.00	N
00173733	16.84	79V680	10	18.71	24.00	N

### Freight Import features:

- Pass the Ship To address information from your Sales Order transactions into UPS Worldship® and FedEx Ship Manager® for address label printing
- Import the calculated freight charges back into Sales Order
- Allows for freight discounting based on Shipper Number as part of the freight import process
- Include the optional shipment tracking number as part of the import
  - This option will also provide the additional benefit of search capability within Sales Order screens by the shipment tracking number

### Freight Import cost benefits:

- Your employee time is saved two-fold by eliminating duplicate data entry of both the Ship To address information into shipping software **and** the freight charges back into Sales Order
- Virtually eliminate keying errors caused by duplicate data entry
- Automatically apply shipper discounts
